

WORK EXPERIENCE

ProKarma

Senior UX Consultant
April 2018-Current

Brought on as a senior resource, I took over and led the UX portion of Dignity Health's My Home mobile app. I have also served as a usability consultant for Follett and delivered concepts for sales pitches.

Outside of client work, I am leading an effort to standardize our team's wireframe deliverables which will include a reusable pattern library.

UX Lead for Dignity Health's My Home Mobile app

GENERAL MOTORS

Product Designer
June 2016-March 2018

Hired into GM's Global Product Development team as a direct employee, I saw my workflow slightly shift to predominately focus on user experiences for mobile and wearable products. Deliverables included wireframes, logic flows, prototypes, IA documentation, technical specs, and conceptual UI compositions.

UX product design lead for mobile pattern library redevelopment

MRM McCANN

UX Designer
June 2015-June 2016

Working in an integrated role with GM's Global Connected Consumer team, I was responsible for creating user experiences that were implemented across a variety of digital mediums. Deliverables included wireframes, logic flows, and documented IA.

UX lead for OnStar and Owner Center payment acceptance redesign

FREELANCE CONTRACTOR

Various
October 2014-June 2015

After over four years at Art Van, I took some time to work for myself. I provided UX/UI consulting and front-end development services for companies such as Harman Becker/Subaru, Skidmore Studio, Southern Sudan Healthcare Organization, and Purchase Point. I also developed websites for small businesses such as Double Trouble Entertainment and Downtown Ferndale Bike Shop.

ART VAN FURNITURE

UX/UI Designer -
Front End Developer
Dec 2010-October 2015

As a part of the Art Van furniture eCommerce team I designed features and implemented functionality for web and mobile interfaces. I worked on numerous front-end development projects and served as a vital bridge between the design and development teams. I also facilitated user testing and focus groups.

UI design lead for 2014 home page and global redesign
